Angola Interconnection Ecosystem

Thursday, 19 November 2020 12:40 (30 minutes)

The aim of my presentation during AFRINIC- 31 is to highlight prior to anything the "Angolan Internet Landscape" since this is the first time Angola is hosting an AFRINIC event.

Presentation will have around 20 – 30 minutes whereby the main subject to be pointed out will be as follow:

a) Country general background;

b) Telecommunications general background e.g. number of registered ASN(s), Datacenters, Subsea Cables, IXP(s), etc;

c) Interconnections ecosystem including the IP addressing evolution / adoption;

d) Deep dive on the existing Subsea Systems and the impact on the economy / digital development's;

e) Challenges and how to tackle it;

f) The paper of Angolan Peering Forum & Angolan Network Operators Group;

Presenter: DA COSTA, Darwin (Angolan Peering Forum)
